

THE PERFECT BALANCE BETWEEN POWER AND MOBILITY

Where there is no grid, either because you are in the middle of nowhere, are the victim of a disaster or just subject to the aging infrastructure, GoSol MP provides "grid size" power for your home or business.

Using solar tracking, GoSol MP maximizes the sun's energy to charge the built in battery bank while AC power comes from the connected inverters. The sun's energy then provides you with point-of-use power where you need it! Plus, a 4G LTE cellular radio provides Internet for up to eight users and GPS low jack.

So, declare your grid independence with GoSol MP!

Power Your Life

MODELS	RATED OUTPUT	SIZE	PROVIDES POWER TO AT ONE TIME
MP3600	3600 W	10' x 8'	 1/2
MP7200	7200 W	20' x 8'	 1
MP10800	10800 W	30' x 8'	 2
MP14400	14400 W	40' x 8'	 4

Features

- Operational 24-Hours
- No Noise
- No Black Smoke
- No Diesel Fuel
- Automated Deploy & Stow
- Solar Tracking for 45% Greater Output
- High-Capacity AGM Battery Technology
- Transportable
- Self-Contained
- GPS Locator Capabilities
- Wi-fi Capabilities

Ideal Applications

- Oil/Gas Producers
- Mining & Forestry
- Emergency Management
- Agri-business/Farmers
- Construction
- Government
- Rural Communities
- Infrastructure
- Home Builders/Residential

POWER...EVERYWHERE YOU ARE!
