GoTo IndraDrive C Control Sections - Ship in 10 days or less

We can supply control units tailored to your specific application, ranging from standard to high-end applications. Integrated motion logic, numerous technology functions, certified safety technology and standardized interfaces leave nothing to be desired.

The correct interface for connecting the IndraDyn motors or other standardized encoders, such as Hiperface®, is already integrated.

Key application advantages include:

- ADVANCED control units meet the highest demands in performance and dynamics.
- Signal transfer via fiber optics guarantees the secure exchange of real-time data with minimal wiring.
- Conventional ± 10 V analog interface
- Digital inputs/outputs and analog input on board
- Standard , Servo and Synchronization modes available
- Intelligent operating panel with programming function supports device swap without a PC
- Scalable performance and functionality
- An additional plug-in MultiMediaCard gives you the option of simple transmission or duplication of your drive parameters.
- A standard encoder interface for IndraDyn motors is already featured among the BASIC control units.
- Integrated motion logic with IEC-compliant PLC
- Drive-integrated safety technology

Products:

| Type Code | Description |
|--------------------------------|----------------------------|
| CSB01.1C-ET-ENS-EN2-NN-S-NN-FW | IndraDrive Control Section |
| CSB01.1C-ET-ENS-NNN-NN-S-NN-FW | IndraDrive Control Section |
| CSB01.1C-SE-ENS-EN2-NN-S-NN-FW | IndraDrive Control Section |
| CSB01.1N-AN-ENS-NNN-NN-S-NN-FW | IndraDrive Control Section |
| CSB01.1N-SE-ENS-NNN-NN-S-NN-FW | IndraDrive Control Section |

Shipment Info: All of the products listed above have a shipping time of 10 days or less.
