

GoTo Drives System - Ship in 5 days or less

GoTo Motors - Ship in 5 days or less

The particularly outstanding features of the MSK range of motors are its wide power spectrum and narrow size increments. The high torque density of these synchronous servo motors allows a particularly compact design with maximum torques of up to 495 Nm.

A number of further options, such as the shaft keyway, holding brake, reduced runout and the high protection category IP65 mean that they can be used in virtually any application.

Key features include:

- Motors with the highest level of efficiency
- High protection category IP65
- Multi-turn encoder (Hiperface®) - 128 increments with 4,096
- Encoder systems for a wide and diverse range of applications
- Power connector rotate up to 240°
- Digital type plate and parameter memory
- Choice of cooling systems

Products:

Type Code	Description
MSK030C-0900	MSK Synchronous Motor
MSK040B-0600	MSK Synchronous Motor
MSK040C-0450	MSK Synchronous Motor
MSK040C-0600	MSK Synchronous Motor
MSK050C-0600	MSK Synchronous Motor
MSK060C-0300	MSK Synchronous Motor
MSK061C-0600	MSK Synchronous Motor
MSK071E-0300	MSK Synchronous Motor
MSK071E-0450	MSK Synchronous Motor
MSK076C-0300	MSK Synchronous Motor
MSK100B-0300	MSK Synchronous Motor
MSK100C-0300	MSK Synchronous Motor
MSK101D-0450	MSK Synchronous Motor

Shipment Info: All of the products listed above have a shipping time of 5 days or less.
